play it with a pusley kind of rythym
so take one word you said
you put it in your bed you rest your tiny head
on your pillow you
wonder where you're going next you got your
head pushed to my chest and now you're
hoping that someone let's you in
well i sure'll let you in (Fill is F C )
you know that you're in
oh kelsey, you
Keyboard Fill
(Verse 1)
so don't let anyone scare you
you know that i'll protect you
always all through the thick and
thin until the end
you better watch it you
know you don't cross it
because i'm always here for
you and i'll be here for you
i know i know how it
feels believe me
i've been there
i know what it
```

Acordes

```
feels like
tell me kelsey
Chorus
i'd swim the ocean for you
the ocean for you
whoa, oh kelsey
and i'd swim the ocean for you
swim the ocean for you
whoa, oh kelsey
Keyboard Fill
(Verse 3)
it's going to get
harder and it's going to burn
brighter and it's going to
feel tougher each and every day
so let me say that i love you; your
all that i've ever wanted
all that i've ever dreamed of
to come and yes you did
come i want you so bad
bad can you feel
it too you know i'm so,
i'm so in love you
i want you for so much
i need you for so much
i need you, i need you,
your touch
