

Michael Bolton - That's What Love Is All About

Tom: E

The reason why This dream of our survives

There was a time We thought our dream was over Through thick and thin We're destined for each other

When you and I Had surely reached the end Knowing we can reach the other side Far beyond the mountains of our pride

Still here we are The flame as strong as ever [Bridge] Riding the good times is easy The hard times can

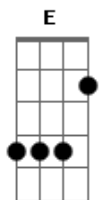

All because we both kept holding on any storm We know we can weather any tear you apart There'll be times in your heart When the feelin' is gone

[Chorus 1] Baby, that's what love is all about Two hearts that find a But ya keep on believing And ya keep holdin' on To keep the fire burning If it takes forever To keep the dream from dying

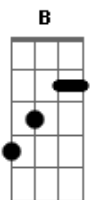

[Chorus 2] Baby, that's what love is all about Two hearts that find a way, somehow If it takes forever It's something we could never live without If it takes forever We can work it out Beyond a shadow of a doubt Baby, that's what love is all about

[Verse 2] As time goes by We've learned to rediscover Baby, that's what love is all about
