

# Michael Jackson - A Place With No Name

Tom: G  
Intro: 5x: Em D

( Em D )  
As I drove across on the highway  
My jeep began to rock  
I did not know what to do so I stopped and got out  
And looked down and noticed I got a flat  
So I walked out, parked the car like sideways  
So I can find what I can fix  
I looked around there were no cars on the highway  
I felt a strange feeling like a mist  
I walked down towards the end of the road  
And in the fog a woman appeared  
She said do not you worry my friend I will take care  
Take my hand, I will take you there

Take me to a place without no name  
Em D7 Em D7  
Take me to a place without no name

( Em D )  
As she took me right through the fog  
I see a beautiful city appear  
Where kids are playing and people are laughing and smiling and  
No one is in fear  
She said this is the place where no people have pain  
And in love and happiness  
She turned around looked down at my eyes and started crying  
She grabbed my hand, you got a friend

Interlude 4x: Em D

( Em D )  
She started liking me kissing me and hugging me  
She did not really, really want me to leave  
She showed me places I have never seen things I have never done  
This place really looks like a lot of fun  
I have seen the grass and the sky and the birds  
And the flowers surrounded by the trees  
This place is filled with love and happiness  
And not a world could I want to leave  
So then I went in my pocket took my wallet on out  
With my pictures of my family and girl  
This is the place that you choose to be with me  
When you thought you could be in another world
