

Michael McLean - Easy To Believe

tom:
 I wasn't there when he appeared, I had my doubts
 But he really came
 I wanted to believe but I could not
 And I felt ashamed
 To hear returned and called out my name
 He said "Thomas."
 What can I do to make it easy for you to believe?
 Is there anything more I can give you before I must leave?
 Don't fear that you've done something wrong
 On the days that your faith's not that strong
 What can I do to make it easy for you to believe?
 What can I do to make it easy for you to believe?

Everyone wants to find answers to questions they need
 But the answers they don't always come in the same way for
 Everyone
 What can I do to make it easy for you to believe?
 See the wounds in my hands and my feet
 See the place the sword pierced my side
 Do, Thomas my friend, it is me, I am alive
 So what else can I do to make it easy for you to believe?
 Is there anything more I can give you before I must leave?
 If a day comes when you're filled with fear
 You would be dreaming that I wasn't here
 Don't worry my friend that you failed once again
 Leave the problem completely with me
 And I'll find some way new to make it easy for you to believe
