Intro: -G - B - E - A - D = 4x's
                                                               And with the faith and love God's given,
                                                               Springing from the hope we know,
(verse 1)
                                                               We will pray the joy you live in,
               Bm
                                                               Is the strength that now you show,
Packing up the dreams God planted,
                                                               (bridge)
                                                               But we'll keep you close as always,
In the fertile soil of you,
                                                               It won't even seem you've gone,
                   Bm
Can't believe the hopes He's granted,
                                                               'Cause our hearts in big and small ways,
                                                               Will keep the love that keeps us strong,
Means a chapter in your life is through,
                                                               (chorus)

But well keep you close as always,
