This is a really cool song that I couldnt find online

I tabbed it myself. It sounds right on. I tried to make  
 it real simple to read. I finished most of it Listen  
 to the song  
 it's all figured out just put it where it goes. I did a  
 little but got tired.  
 I did most of the song. It's like 99.9% right maybe the  
 I way tabbed it is messed up but the song is  
 back for ? and corrections
