                                                               Mountains and valleys, and all that will come in between

                                                               Desert and ocean
                                                                                   Dh
                                                               You pulled me in and together we're lost in a dream
Some people long for a life that is simple and planned
                                                               Always in motion
Tied with a ribbon
                                                               So I risk it all just to be with you
                         Db
Some people won't sail the sea 'cause they're safer on land
                                                               E Gbm D E
And I risk it all for this life we choose
To follow what's written
But I'd follow you to the great unknown E Gbm D E
                                                               Hand in my hand
Off to a world we call our own
                                                               And we promised to never let go
                                                               We're walking a tightrope
Hand in my hand
                                                               High in the sky
And we promised to never let go
                                                               We can see the whole world down below
We're walking a tightrope
                                                               We're walking a tightrope
High in the sky
                                                               Never sure, will you catch me if I should fall?

We're walking a tightrope

Never sure, never know how far we could fall

But it's all an adventure
