

Midland - Burn Out

Tom: G

Watchin' cigarettes burn out

Till all the neon gets turned out

I'm so on fire for you it hurts how

Fast a cigarette can burn out

Just watchin' rivers run down the side of the bottle

almost like it's cryin' my tears

Had the world on a string

and then I lost everything

and that's how I wound up here

Watchin' cigarettes burn out

Till all the neon gets turned out

There's nothin' left but empty glasses now

it's all flashes now

a smokin' memory that ain't nothin' but ashes

in the low lights

These done me wrong songs hit me so right

I'm so on fire for you it hurts how

fast a cigarette can burn out

If you put your hands on the flame

You've got no right to complain

Cause you know it's going to leave a mark

When the glow comes to an end like scattered embers in the wind

Leaves you lookin' for a brand new spark

Watchin' cigarettes burn out

[Solo] G Em Am D

Now with every hit I'm going to quit

But who am I kiddin' I just can't put you down

So I keep hangin' around

Watchin' cigarettes burn out

Till all the neon gets turned out

There's nothin' left but empty glasses now

It's all flashes now

A smokin' memory that ain't nothin' but ashes

In the low lights

These done me wrong songs hit me so right

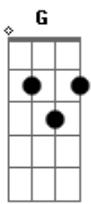

I'm so on fire for you it hurts how

Fast a cigarette can burn out

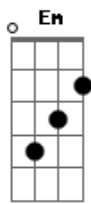

I'm so on fire for you it hurts how

Fast a cigarette can burn out
