

Mike Krol - Like a Star

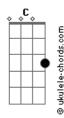

tom: 4.2 light years away I was slow to begin but I'm ready to fade I've been alone now for my whole life And I see black while you see white In the dark, I'm burning light for you

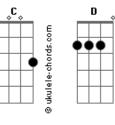

C
D
E
B And that way, you can follow me home I'm like a star I'm burning out fast I try to shine But it's never gonna last Can't you see you're just letting me Down With all my friends, I'll make a Picture

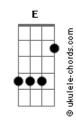

But in the morning I'll be gone (Am E Cm) I'm missing you during the days When the morning comes, I can't stay If you saw me now I wouldn't grant your wish I'm like a star I'm burning out fast I try to shine But it's never gonna last Can't you see you're just letting me Down With all my friends, I'll make a Picture
