Miles Kane - Colour Of The Trap

Tom: A

```
              A
If you just get it together and read my mind
Then sleeping would be easy
     D
And then Ill be there to acquiesce
                    E A
I confess Im in trouble
          A
Another afternoon of increments
And asking the wrong questions
      D
Then you get up and leave again
                        E A
Just as the evening threatens to set

  A              D             E
Consider this now its not too late
                    A     Bm
I have watched you change
                    Dbm
The colour of the trap before girl
Gbm    Bm               E
I have learned to wait

         A
Most of the things that you say
I dont understand but I will sit and listen
D
I nod along attentively
                                E A
```

```
But the truth is I cant concentrate

   A               D           E
Consider this now its not too late
                    A     Bm
I have watched you change
                    Dbm
The colour of the trap before girl
Gbm    Bm
I have learned to wait

    E
Make no mistake
         D
Well I have learned to wait
          Gbm
And you have learned that you can make me
         Bm
I need something to sort me out
          Gbm
I need someone to come and shake me
         Bm
And your exit calms me down
         Gbm
Before it infuriates me
          Bm
Girl Im in trouble
              E                                    A
Wish youd just get it together and read my mind

A                                                    Bm Dm
La la la la la la la la la la la la, la la la la la la la
A                                                    Bm Dm
La la la la la la la la la la la la, la la la la la la la
