

Miley Cyrus - Wake Up America

Tom: E

Oh oh, can you take care of her
 Oh oh, maybe you can spare her
 Several moments of your consideration
 Leading up to the final destination
 Oh oh, the Earth is calling out
 I wanna learn what it's all about
 But everything I read's global warming, going green
 I don't know what all this means
 But it seems to be saying
 Wake up America, we're all in this together, it's our
 Home so let's take care of it, you know that you want to
 You know that you got to
 Wake up America, tomorrow becomes a new day
 And everything you do matters, yeah everything you do matters
 In some way
 Stand up, I'll try if you will
 Wake up, it's not a fire drill
 All she needs is a little attention
 Can you give her just a little attention
 Oh oh, it's easy to look away

But it's getting harder day by day
 Everything I read's global warming, going green
 I don't know what all this means
 But it seems to be saying
 Wake up America, we're all in this together, it's our
 Home so let's take care of it, you know that you want to
 You know that you got to
 Wake up America, tomorrow becomes a new day
 And everything you do matters, yeah everything you do matters
 In some way
 I know that you don't wanna hear it
 Especially coming from someone... so young
 But in the back seat yeah they wanna hear it
 So come on... come on... so come oooooooooooooooooo
 Wake up America, we're all in this together, it's our
 Home so let's take care of it, you know that you want to
 You know that you got to
 Wake up America, tomorrow becomes a new day
 And everything you do matters, yeah everything you do matters
 In some way
