Cold blue rain

I don't wanna think about it

Same old place

Makes me wanna think about it

See your face

Remembering that I'm mad about you

So why embrace

All the things that you do?

I know that we'll be forever

Forever together as one

Our hearts will share the same shelter

We share a place under the same sun

I know that we'll be forever

Forever together as one

Our hearts will share the same shelter

We share a place under the same sun

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

Cold blue rain

Standing right in front of me

Same old place

That I won't ever want to leave

Feel your face

Knowing that I'm mad about you

So why embrace, you

You make me feel like my dreams come true

I know that we'll be forever

Forever together as one

Our hearts will share the same shelter

We share a place under the same sun

I know that we'll be forever

Forever together as one

Our hearts will share the same shelter

We share a place under the same sun

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart is running for your love

My heart
