  Never mind when the birds ain't flying
Those heavy clouds are standing still

  Never mind when the crocodiles
Don't let you walk along the riverside
            Em D
     Cause it's you, leaving that stupid fight
  Never mind when those birds don't fly
                 G
And the heavy clouds are standing still
     Cause it's you, living that stupid dream
          Em
