

Milky Chance - Purple Tiger

tom:

Intro: D A G

I got kissed by the Sun
 I pulled the trigger of the gun
 Barrel flowers came at once
 I took the shot and set them free
 I heard them sing
 Love is all you need

[Refrão]

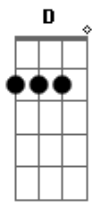

Take me to your dreamland
 You and me babe
 I just wanna stay here all day
 Show me how to love you I'd say
 I'd say
 Take me to your dreamland
 You and me babe
 I just wanna stay here all day
 Show me how to love you I'd say
 Show me how to love you
 Show me how to love you
 Take me to your dreamland
 Show me how to love you
 Take me to your dreamland

The yellow sky was high above
 The purple tiger fell in love
 He didn't know what was going on
 But I took the shot and set him free
 Cause I heard them sing
 Love is all you need

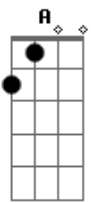

[Refrão]

Take me to your dreamland
 You and me babe
 I just wanna stay here all day
 Show me how to love you I'd say
 I'd say
 Take me to your dreamland
 You and me babe
 I just wanna stay here all day
 Show me how to love you I'd say
 Show me how to love you
 Show me how to love you
 Take me to your dreamland
 Show me how to love you
 Take me to your dreamland
