letra.:

We are reminded every day of the way it will be
Will civilized lifestyle put an end to this we'll see
We got the dated book, we got the go
You got the hated looks but I say so
We got the dated book but I say no

Hit and attack the new deals running dry
Who will believe you when you cannot say why ?
All on a world-scale, is it really so ?
But can I say no ?

This is a process to grow you know it could be a dream
Yeah, the happy consumption, super crappy, over-slappy
theymean

We got the cargo-ships, we got the go
You got the jargo-trips but I say so
We got the cargo-ships but I say no

Hit and attack the new deals running dry
Who will believe you when you cannot say why ?
All on a world-scale, is it really so ?
What can I say?
