

# Millencolin - Nothing

tom:

Intro: **Bm**

There's a **Bm** king upon the throne  
 He's the king there all alone  
 He seems troubled and a little sad  
 Just when you thought that he was glad  
 To be the ruler of the earth  
 Could it be, it wasn't worth  
 More than nothing?

From the day that he was born  
 In his side there was a thorn  
 He just couldn't find the key  
 To be happy and be free  
 He felt forced to wear the crown  
 Slowly it will drag him down  
 Into nothing

[Refrão]

One more drink and you are learning how to fly  
 Everything turns perfect once you reach the sky  
 Pop another pill, don't wanna leave your dream  
 Forget about the days of when you swam upstream  
 And don't you care too much 'bout you feel inside  
 It is probably nothing

I never told you 'bout my dream  
 How I saw us as a team  
 We would free the universe  
 With a chorus and a verse  
 We were gonna make a change  
 But like how every dream is strange  
 It's also nothing

What was goin' through your mind  
 What kind of truth did you find

What did you see from the top  
 That would finally make you stop  
 Did it give peace to your soul  
 Like you reached your final goal  
 Or just nothing?

[Refrão]

One more drink and you are learning how to fly  
 Everything turns perfect once you reach the sky  
 Pop another pill, don't wanna leave your dream  
 Forget about the days of when you swam upstream  
 And don't you care too much 'bout what you feel inside  
 It is probably nothing

On and on, on the road, never-ending  
 Keep a smile up, make sure you're pretending  
 It's been a long while since you prepare

On and on, you're no fish in the water  
 But you're slowly on your way to the slaughter  
 Before you know, everything's too late

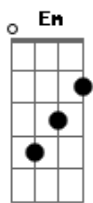

[Refrão Final]

One more drink and you are learning how to fly  
 Everything turns perfect once you reach the sky  
 Pop another pill, don't wanna leave your dream  
 Forget about the days of when you swam upstream  
 And as I hear your song play on the radio  
 A certain sadness in me always starts to grow  
 Will I ever understand the reason why  
 The melody spank me, but wanna smile and cry  
 And all the things you make me feel inside  
 Are anything but nothing  
 And all the things you make me feel inside  
 Are anything but nothing
