```

[Primeira Parte]

```
         Bm          G           Bm          G
I don't want you to know too much about me, oh no
         Bm                                  G
'Cause I know you'll take advantage of the words that I say
         Bm              G           Bm
You're looking for a way to depress me, make me pay

( Bm  G  Bm  G )
```

[Segunda Parte]

```
           Bm       G        Bm                      G
You don't want me to be to close around you 'cause I would see
         Bm                            G
All the weak sides that you got, but which you're trying to
hide
       Bm                     G            D
You know that I would nail you if I could nurse my pride
```

[Refrão]

```
D                     A          Bm
'Cause you're on the top when I am low
               G            D
As soon as you're fading I will grow
       A                 Bm
I don't like you, you don't like me
               G                           Bm
We're lacking energy, yeah we're lacking energy we do

( Bm  G  Bm  G )
```
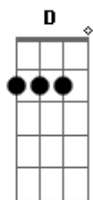

[Terceira Parte]

```
       Bm         G           Bm            G
It's a mindgame we play, rule the roost, major cliché
         Bm                          G
Yeah, one of us is fit, the other's going insane
   Bm                      G            D
And every time we think the positions will remain
```
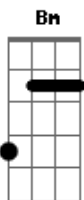

[Refrão]

```
D                     A          Bm
You're on the top when I am low
               G            D
As soon as you're fading I will grow
                         A          Bm
```
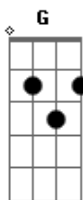

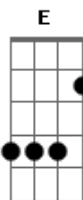

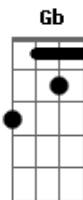

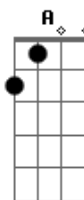

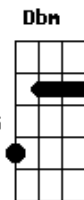

```
I don't like you, you don't like me
                      G                             D
We're lacking energy, yeah we're lacking energy
D              A               Bm
So you got me up against the wall
                G               D
And I'm only waiting for your fall
                 A             Bm
I'll get back on top, and be carefree
                         G                            Bm
It's not the end for me, no it's no the end for me

( Bm  Dbm  D )
( Bm  Dbm  D )
( Bm  Dbm  D )
```

[Ponte]

```
     Bm          Dbm         D
I know we're thinking the same
     Bm       Dbm         D
And our opponent's the one to blame
E                                                G
Thinking this way is not something that we both longed for
E                                              G
Living this way is something that we never did plan
                              A
But I don't think that we'll change
                                   D
'Cause we're stuck in roles as other's antipoles
```

                         G                            Bm

                         G                            E

It's not the end for me
