

# Roger Miller - The Moon Is High

Tom: **D**

Well the moon is high and so am I

The stars are out and so will I be pretty soon **G**  
 And I can tell you're mad at me

There you stand, telling me goodbye **D**

And I say no, you can't go **A**

I love you so much, I can't let you get away **G**

But come the dawn and it will dawn on me you're gone **A D**

Love don't leave me, don't leave me laying here **G**

This ground is cold and chilly really **D**  
 Don't leave your charming Billy

Way out here, you hear? **A**  
 Well the moon is high and so am I

The stars are out and so will I be pretty soon **G**

But come the dawn and it will dawn on me you're gone **A D**

**Eb**  
 Well the moon is high and so am I

The stars are out and so will I be pretty soon **Ab**  
 And I can tell you're mad at me

'Cause there you stand, telling me goodbye **Eb**

And I say no, you can't go **Bb**

I love you so much, I can't let you get away **Ab**

But come the dawn and it will dawn on me you're gone **Bb Eb**

**Ab**  
 Love don't leave me, don't leave me laying here

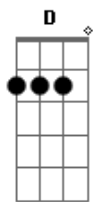

This ground is cold and chilly really **Eb**  
 Don't leave your charming Billy

Way out here, you hear? **Bb**  
 Well the moon is high and so am I

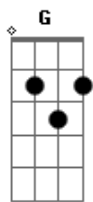

The stars are out and so will I be pretty soon **Ab**

But come the dawn and it will dawn on me you're gone **Bb Eb**
