Don't Bother None
 Cowboy Bebop

One of the more difficult songs I've had to tab; heres the key; this is a blues song, so add a few bends, not just for effect but also for "feeling." For those who don't know what I'm talking about; go play more blues. The song is played on an acoustic. For the Intro, the guitarist often strums every string on the guitar (but mutes most of the notes) to get a sort of chipping sound
