

## MisterWives - Box Around The Sun

```
[Chorus]
 (com acordes na forma de G )
Capostraste na 7^{\underline{a}} casa
                                                                You were there for the waking, my soul was sleeping
Intro: Am Em G D (x2)
                                                                You woke me shaking every piece of me
[Verse]
                                                                You took me under, eyes wide to you with wonder
I was just barely holding on trying to keep on
                                                                Built me a heart strong, carry me on and on
        Em
                           G
I saw no signs of anyone, box built around the sun
                                                                [Interlude]
                                                                Am Em G D
I thought to sleep the day away but dreams were as dark as the
                                                                [Bridge]
How did you hear the drop of my tear you just saw the fear
                                                                Put away the days,
                                                                when no matter was what I chased,
                               G
                                                                when love had no space to live
You were there for the waking, my soul was sleeping
You woke me shaking every piece of me
                                                                This world we built,
                   G
You took me under, eyes wide to you with wonder
                                                                is long passed failed
Built me a heart strong, carry me on
                                                                my hands cannot hold on to a shield
[Verse]
                                                                my hands cannot hold on to a shield, shield
                                                                my hands cannot hold on to a shield, shield
               Fm
We find light down every road we take, feet never seem to
                                                                opened up what I had sealed, sealed
Unable to feel unstable and you carry me all the way (all the
                                                                opened up what I had sealed, sealed
                             Em
                                                                [Chorus]
I see comfort in your ways, keeping me safe for the days
 D D
oh oh, oh oh
                                                                You were there for the waking, my soul was sleeping
\mathsf{Am}
                                                                You woke me shaking every piece of me
Your presence gives me joy alone, never do I face the world
alone (alone)
                                                                You took me under, eyes wide to you with wonder
                                                                Built me a heart strong, carry me on and on
```
