Misun - Penny

Tom: E
Intro: B A E
        B A E

```
E           B                        A           E
I used to listen to this one song over and over
B           A           E
And it made me so hung over
  B             A           E
Maybe I don't like to write too much
    B           A           E
'Cause it requires having things too much
    B           A       E       B
And I haven't got anything in a long time
```

```
        A           E           G
On his knife, my usual slide

            E                   A
But I'm a whole new person now
                        B                   G
Let me show you that I know how to love you now
                E                   B
'Cause I'm a whole new person now
                                    A           B
Let me show you that I know how to love you now

[Final]  B A E
         B A E
```
