

Mitski - Once More To See You

tom:

Intro: D

In the rearview mirror
 I saw the setting sun on your neck
 And felt the taste of you bubble up inside me
 But with everybody watching us
 Our every move
 We do have reputations
 We keep it secret
 Won't let them have it

So come inside and be with me
 Alone with me
 Alone
 With me alone
 If you would let me give you pinky promise kisses
 Then I wouldn't have to scream your name

Atop of every roof in the city of my heart
 If I could see you
 Once more to see you

Come inside and be with me
 Alone with me
 Alone
 With me alone
 If you would let me give you pinky promise kisses
 Then I wouldn't have to scream your name
 Atop of every roof in the city of my heart
 If I could see you
 Once more to see you
 If I could see you
 Once more to see you
