

# Moons - Sweet And Sour

G tom:

When hard times are ahead of us  
 Don't stand wondering why  
 Never, never let it kill you  
 Or obfuscate your light  
 We've been through so much things, my dear  
 And we always survived  
 We ever ever had each other  
 To hold tight

Life can be sweet and sour  
 And when you lose your power  
 Remember you have me  
 Just try to keep your balance

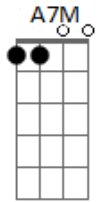

No time for being careless  
 Remember who you've been

Never, never let it kill you  
 Or obfuscate your light  
 Don't feel ashamed dear  
 And swallow your pride

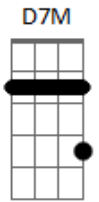

Life can be sweet and sour  
 And when you lose your power  
 Remember you have me  
 Just try to keep your balance  
 No time for being careless  
 Remember who you've been

Your voice blowing in the wind is music to my ears  
 I run and dance on a wire, just like I always did
