chorus is Bb-F-C.

C =3D x32010      Dm =3D xx0231     F =3D 133211      Bb =3D
x13331     G =
=3D 355433

                        Don't Go Away Mad (Just Go Away)
                                by M=94tley Cr=81e

C                     Dm
We could sail away or catch a freight train
     F                C
Or a rocket ship into outer space
        C                    Dm
Nothin' left to do too many things were said
   F                      C
To ever make it feel like yesterday did
C                           Dm
Seasons must change, separate paths, separate ways
       F                        C
If we blame it anything, let's blame it on the rain
  C                      Dm
I knew it all along, I'd have to write this song
   F                              C
To young to fall in love, guess we knew it all along

Chorus:
         Bb             F
That's alright, that's OK
          C
We were walkin' through some youth, smilin' through some pain
           Bb             F
That's alright, that's OK
                 C
Let's turn the page

             C              Dm
My friends called today, down from L.A.
           F                                    C
They were shootin' pool all night and sleepin' half the day
      C                              Dm
They said I could crash if I could find my own way
   F                              C
I told them you were leaving on a bus to go away

[Chorus]
         Bb             F
That's alright, that's OK
          C
We were two kids in love tryin' to find our way
          Bb             F
That's alright, that's OK
          C
Held our dreams in our hands, let our minds run away
          Bb             F
That's alright, that's OK
          C
We were walkin' through some youth, smilin' through some pain
          Bb
That's alright, let's turn the page
    G
And remember what I say, and it goes this way

C           D
Girl, don't go away mad
F               C
Girl, just go away!
```
