

## Mr. Big - Wild World

```
Tom: F
                                                        Oh, baby baby it's a wild world
                           Bb
Now that I've lost everything to you
                                                        It's hard to get by just upon a smile
You say you wanna start something new
It's breaking my heart you're leaving, baby I'm grieving
If you wanna leave take good care
                                                        Oh, baby baby it's a wild world
Hope you have a lot of nice things to wear
But then a lot of nice things turn bad out there
                                                        And I'll always remember you , like a child girl
Oh, baby baby it's a wild world
                                                        Baby I love you
It's hard to get by just upon a smile
                                                        But if you wanna leave take good care
                                                        Hope you make a lot of nice friends out there
Oh, baby baby it's a wild world
                                                        Just remember there's a lot of bad everywhere
And I'll always remember you , like a child girl
                                                        Oh, baby baby it's a wild world
                                                        It's hard to get by just upon a smile
You know I've seen a lot of what the world can do
And it's breaking my heart in two
Cause I never wanna see you sad girl, don't be a bad girl
                                                        Oh, baby baby it's a wild world
Dm G7
But if you wanna leave take good care
Hope you make a lot of nice friends out there
                                                        And I'll always remember you , like a child girl
Just remember there's a lot of bad and beware
```
