SOLOS

Leave me alone it's nothing serious  
I'll do it myself  
It's got nothing to do with you

And there's nothing that you can do

You can see it and you can almost hear it too  
You can almost taste it  
It's nothing to do with you

Leave me alone it's nothing serious  
I'll do it myself  
It's got nothing to do with you

And there's nothing that you can do

And it's still nothing you can do

So come in my cave

And I'll burn your heart away

You can see it and you can almost hear it too  
You can almost taste it  
It's nothing to do with you

Come in my cave

And it's still nothing you can do

I'll burn your heart away

So come in my cave

And I'll burn your heart away

Please close your ears  
And try to look away  
So you never hear a single word I say

Come in my cave

I'll burn your heart away

And don't ever come my way

Please close your ears  
And try to look away  
So you never hear a single word I say

Leave me alone it's nothing serious  
I'll do it myself  
It's got nothing to do with you

And don't ever come my way

And there's nothing that you can do

So come in my cave

And I'll burn your heart away

Leave me alone it's nothing serious  
I'll do it myself

It's got nothing to do with you

And there's nothing that you can do

So come in my cave

And I'll burn your heart away

Come in my cave

And arrest me from my escape
