Oh Bridge, playing it this way does work but Bellamy plays them as octaves, thanks to NoBlameNoShame for that, it is on the other tab for this song (Play twice)

## Acordes

Now play the Intro Riff twice whilst Matt is going

Now do the little mute fill

Now play the 2nd Intro riff twice

Fingertapping part (This is a weak guess at what Matt is doing, I'm not very good at tabbing fingertapped solos, listen to the song to get the right pace to play the solo at)

```

g ---10--10---7----9----9---7---Repeat this over for about 6

Powerful Vocals slow part  
 Now play 2nd Intro part twice again with stomping bass drum

Now play the tremelo picked verse, but just the once this time

Now play the Ooooooooooooooooooooooh Bridge twice again
