

# Muse - Des

Tom: **B**

Tabbed by: Erik Furlanis

there's only a low-quality mp3 of this song. it may get very strong differences day by day cos, as already said, it's a brand new song still to be ready.

you'd better play it with a 24-fret guitar!  
Intro: /Verse

Bridge

(strum each chord 4x)

Chorus

(strum each cord 4x)

(very fast picking)

Intro: /verse: repeat a lot of time  
bridge: repeat twice  
chorus: only one  
verse: repeat another lot of time  
chorus: only one  
solo: the solo starts from the intro line, and continues in some bendings  
etcetc.. haven't tabbed it out!

hope it suits quite well!!
