

Os Mutantes - Baby

tom:
 You know, you must take a look at the new land
 The swimming pool and the teeth of your friend
 The dirt in my hand
 You know, you must take a look at me

Baby, baby
 I know that's the way

You know, you must try the new ice-cream flavour
 Do me a favour, look at me closer
 Join us and go far
 And hear the new sound of my bossa nova

Baby, baby
 I love you

It's been a long time

You know, it's time now to learn portuguese

It's time now to learn what I know

And what I don't know

And what I don't know

And what I don't know

I know, with me everything is fine

It's time now to make up your mind

We live in the biggest city of South America

Of South America

Of South America

Look here read what I wrote on my shirt

Baby, baby
 I love you

You do!
