

## **My Chemical Romance - Cemetery drive**

```
Did you get what you deserve?
                                                              Dbm B
Is this what you always want me for?
               tom:
               Dbm
       [Primeira Parte]
                                                              [Refrão]
This night walk the dead
                                                               Gbm
   Dbm B
                                                              I miss you
In a solitary style
                                                                         Dbm B
                                                              I miss you so far
And crash the cemetery gates
   Dbm
                                                              And the collision of your kiss that made it so hard
In the dress your husband hates
                                                              [Ponte]
Way down
Mark the grave
                                                              Way down
                                                                  Gbm
        Dbm
Where the searchlights find us
                                                              Way down
B A Gbm
Drinking by the mausoleum door
                                                                  Dbm
                                                              Way down
       Dbm
And they found you on the bathroom floor
                                                              [Refrão]
[Refrão]
                                                              I miss you
Gbm
                                                                           Dbm B
                                                                  F
                                                              I miss you so far
I miss you
                                                                                         Gbm
          Dbm B
                                                                     A2
I miss you so far
                                                              And the collision of your kiss that made it so hard
                                                                       Gbm
And the collision of your kiss that made it so hard
                                                              When will I miss you?
                                                                                Dbm
                                                                         F
                                                              When will I miss you so far?
[Segunda Parte]
                                                              And the collision of your kiss that made it so hard
Back home
                                                                           В
                                                              That made it so hard
     Gbm
Off the run
     Dbm
                                                              [Final]
Singing songs that make you slit your wrists
                   Gbm
It isn't that much fun
                                                              Way down
     Dbm
                                                                  Gbm
Staring down a loaded gun
                                                              Way down
   Α
                                                                  Dbm
So I won't stop dying
                                                              Way down
 Gbm
Won't stop lying
                                                              Way down
If you want, I'll keep on crying
                                                              Way down
     Α
Acordes
    Dbn
