

My Chemical Romance - Fake Your Death

Tom: G
Intro: G D Em D G C

Some people watch
Some people pray
But even lights can fade away
Some people hope
Some people pay
But why do we have to stay
Cos even heroes get the blues
Or any misery you choose
You like to watch
We like to use
And we were born to lose

Chorus:
I choose defeat
I walk away
And leave this place the same today
Some like to sleep
We like to play
Just look at all that pain

You want the heart
And to be saved
But even good guys still get paid
So watch my back
and keep the blade
I think it got you laid

So fake your death
or its your blame
And leave the lights on when you stay
Take off your clothes
And dream that fame
Come on and feel that shame

Chorus:
I choose defeat
I walk away
And leave this place the same today
Some like to sleep
We like to play
Just look at all that pain
Just look at all that pain x3
Just give me all that pain x3

Chorus:
I choose defeat
I walk away
And leave this place the same today
Some like to sleep
We like to play
Just look at all that pain
I choose defeat
I walk away
And leave this place the same today
Some like to sleep
We like to play
Just look at all that pain
