

# My Chemical Romance - Hang Em High

Tom: F

[verse]

**Dm**  
Wait until it fades to black

Ride into the sunset

**F**  
Would I lie to you?

**A**  
Well, I've got something to say

**Dm**  
Grab your six-gun from your back!

Throttle the ignition,

**F**  
Would I die for you?

**A**  
Well here's your answer in spades!

[refrain]

**Bb**  
Shotgun sinners

**C**  
Wild eyed jokers

**A** **Dm** **C**  
Got you in my sights

**Bb** **A**  
Gun it while I'm holding on

{verse}

**Dm**  
After all is said and done

Climb out from the pine box

**F**  
Well I'm asking you

**A**  
'Cause she's got nothing to say

**Dm**  
The angels just cut out her tongue!  
Call her black Mariah,

**F**  
Would I lie to you?

**A**  
That girl's not right in the brain!

[refrain]

**Bb**  
Mass convulsions

**C**  
Strike the choir

**A** **Dm** **C**  
By the grace of God

**Bb** **A**  
Gun it while I'm holding on

[chorus]

**Dm** **F**

But don't stop if I fall

**Bb** **C**  
And don't look back

**Dm**  
Oh baby don't stop,

**F** **Bb** **C**  
Bury me, and fade to black

[bridge]

**Dm**  
She won't stop me put it down

**Dm**  
She won't stop me put it down

**Bb**  
She won't stop me put it down

**A**  
So get your gun and leave me by the door

**Dm**  
She won't stop me put it down

**Dm**  
She won't stop me put it down

**Bb**  
She won't stop me put it down

**A**  
So get your gun and leave me by the door

**Dm**  
She won't stop me put it down

**Dm**  
She won't stop me put it down

**Bb**  
She won't stop me put it down

**A**  
So get your gun and leave me by the door

**Dm**  
She won't stop me put it down

**Dm**  
She won't stop me put it down

**Bb**  
She won't stop me put it down

**A**  
So baby...

[chorus]

**Dm** **F**  
But don't stop if I fall

**Bb** **C**  
And don't look back

**Dm**  
Oh baby don't stop,

**F** **Bb** **C**  
Bury me, and fade to black

**Dm** **F**  
But don't stop if I fall

**Bb** **C**  
And don't look back

**Dm**  
Oh baby don't stop,

**F** **Bb** **C**  
Bury me, and fade to black
