

# My Chemical Romance - The Only Hope For Me Is You

Tom: **Gb**

(com acordes na forma de **E** )  
Capostrate na 2ª casa  
(intro 3x)

**E**  
Remember me  
**Am**  
Remember me

(verso 1)

**E**  
Where

Where will you stand  
When all the lights go out  
Across these city streets?

Where were you when  
All of the embers fell

I still remember  
**E**  
There

Covered in **B** ash  
Covered in **Dbm** glass  
Covered in **B** all my friends I  
**Am**  
Still

Think of the bombs they built

(refrão)

If there's a person I could be

Then I'd be  
**Dbm** **Abm**  
another memory

Can I be the only hope for you

Because you're the only hope for me

And if we can find where we belong

We'll have to make it on our own

Face all the pain and take it on

Because the only hope for me is you alone

(verso 2)

How would you be  
Many years after the disasters that we've seen

What have we learnt  
Of other people burn in pure and fire flame

I'll say it's okay

I know you can tell

Although you can see me smile

I still

Think of the guns they sell

(refrão)

If there's a person I could be

Then I'd be  
**Dbm** **Abm**  
another memory

Can I be the only hope for you

Because you're the only hope for me

And if we can find where we belong

We'll have to make it on our own

Face all the pain and take it on

Because the only hope for me is you alone

(ponte) **B** **Am** **Dbm** **B** **Ebm**

The only hope for me

The only hope for me is you

The only hope for me is you

The only hope for me is you

The only hope for me is you

The only hope for me

(refrão)

If there's a person I could be

Then I'd be  
**Dbm** **Abm**  
another memory

Can I be the only hope for you

Because you're the only hope for me

And if we can find where we belong

We'll have to make it on our own

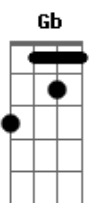

Face all the pain and take it on

Because the only hope for me is you alone

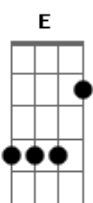

The only hope for me is you

The only hope for me is you
