In another life, in another place
 Maybe you'd have found what bring some to believe
 On a different road, in a perfect space
 Maybe all the hurt you've known would fail to be

Never mind the pain
 Cause love can only heal
 If only you could trade the dark for light
 It might reveal
 That there's a place inside
 Don't be afraid to feel
 Cause love can only heal

```

Did it let you go when you lost your way
 Did it throw you to the wind and watch you break
 Does it haunt you now, are you ever safe
 From the empty space inside that you can't take

Never mind the pain
 Cause love can only heal
 If only you could trade the dark for light
 It might reveal

That there's a place inside

Don't be afraid to feel
 Cause love can only heal
