

Myles Kennedy - Worried Mind

tom:

Intro: D C2 Bm Bb
D A7 D

Don't be scared
Do not cry
Things will get better, just give it time
Let me hold you
Let me ease your worried mind
Let your fears
Drift and die
If for a moment, if for the night
Let me show you
Let me ease your worried mind

A little give and take
Could light the way
And bring this back to life
Either way
Baby, I'm here to stay

You can run
You can hide
But please remember, if you give it time
Love might find you

Let it ease your worried mind

Could light the way
And bring this back to life
Either way
Baby, I'm here to stay

I know you're scared
I know you're tired
This can't last forever, we will get by
Let me show you
Let me ease your worried mind

We'll overcome
We will survive
If we stick together, we will be alright
Love can save you
