 We felt like we were returning
 Em C
 To our land rebels
 G D
 And the shepherds in the sea
 Em C G D
 Takers are taking what the leavers will leave
 Em C G D
 So grieve me the black prince cicada
 Em C G D
 Such a loud voice for a tiny creature
 Em C G D
 Teach me to let go of all of my pain
 Em C G D
 I do forgive, I don't forget these things
 Em C G D
 I do forgive, I don't forget these things
 Em C G D
 We burn the bluegum for a safe passageway

 Em C G D
 Our prayers igniting, cast out into the shire
 Em C G D
 And the song of our struggle came straight from the fire
 It goes

C D Bm
 Holy holy grandmother

 Give us strength for our new beginnings

In my deepest grace I sing

 My bullets are my words and my words are my weapons

Em C G D
 We danced the ghost dance in two separate countries
 Em C G D
 To this old song so familiar to memory
 Em C G D
 The road will teach you how to love and let go
 Em C G D
 It can be lonely but it's the only thing that we've ever known
 Em C G D
 It can be lonely but it's the only thing that we've ever known
 Em C G D
 Our mommas told us let go of jealousy
 Em C G D
 And for vagabonds and vagrants, that won't come so easy
 Em C G D
 We've come from nothing, nothing
 Em C G D
 We have come from nothing, nothing
 Em C G D
 Teach me to love you in a different way
 Em C G D
 Same cuts same guts same crazy
 Em C G D
 Same cuts same guts same crazy
 Em C G D
 I traveled halfway across the country and back
 Em C G D
 Only to find love undefined and I'm OK with that
 Em C G D
 Cause I'm gonna be a guardian be a man among men

Em C G D
 Be a guardian be a man among men
 Em C G D
 Or be a woman among women be a guardian
 Em C G D
 Be my friend ooh be my friend
 Em C G D
 We're a part of something special
 Em C G D
 We're a part of something special
 Em C G D
 We're a part of something special
 Em C
 It's a crack in time

 A wrinkle
 Em C G D
 Fallen from the nest, young eagle
