

# Nan - Between Us

Tom: E

m

Intro: Em Am

I know you wanna do, Darling

This is our true

Girl you're doing well, baby

And right

Love turns me on, Darling

Honey I can't hold on

Let me carry you home, baby

Tonight

All we need is a small room to set our souls free

I believe we can win let your body on top of me

Top of me, top of me, top of me

It's all between us baby

Nobody cares what happens when you're beside of me

It's all between us baby

Don't you tell them what is going on, what is going on

It's all between us

Don't let this time go on, darling

I've always been alone

Let us be alone, baby

Together

Nothing can be wrong, darling

Listen to this song

Let me trust in this, baby

Forever

All we need is a small room to set our souls free

I believe we can win let your body on top of me

Top of me, top of me, top of me

It's all between us baby

Nobody cares what happens when you're beside of me

It's all between us baby

Don't you tell them what is going on, what is going on

It's all between us baby

Nobody cares what happens when you're beside of me

It's all between us baby

Don't you tell them what is going on, what is going on

It's all between us

It's all between, It's all between, It's all between.... US

It's all between, It's all between, It's all between.... US

It's all between, It's all between, It's all between.... US
