```
                  Am          F                        Am    F
Once i laughed when   i heard you saying
                 Am     F          Am F
That i'd be playing solitaire
             Am     F              Am Bb
Uneasy in my easy chair
                                        Gm Eb7 C7
It never entered my mind
      F          Am     F                  Am  F
Once you told me    i was mistaken
                Am       F               Am  F
That i'd awaken with the sun
                      Am     F                  Am Bb
And ordered orange juice for one
              F                          Am Em C7
It never entered my mind

Once you warned me    that if you scorned me
                     Am           F            Am  F
I'd sing the maiden's prayer again,
                       Am       Cm     Bb D7 Gm
And wish that you were    there again
            C7        F      F7M  Bb              F
