```
                Am

            Am                  G
I came looking for something
  F            Em
I didn't know what
Am           G
I follow my heart
F              Em
Without any questions

Am             G
Called by the fate
F          Em
With no notion
Am         G
Anyway I came
F            Em
To find out

Am            G
I was called by the fate
F                    Em
It had something for me
Am       G
I came to find out
F            Em
Was for you Destiny

Am            G
Under the sunset
F                   Em
In a dream I had a vision
Am                  G
Became so clear to me
F           Em
That prophecy

Am          G
And when I found you
F              Em
My heart felt tight
Am          G
I felt I had found
F              Em
What the fate planned

Am            G
I was called by the fate
F                    Em
It had something for me
Am       G
I came to find out
F            Em
Was for you Destiny
