Dm

Your dreams, your goal, your life (do it yourself)

You will achieve in time (do it yourself)

at least you got to try (do it yourself)

believe you're dynamite (do it yourself)

Bb Dm F

I need time to think about it

an empty place where I can find everything

I was trying to let time transpire

but believe, start at the beginning

think louder, make it happen, keep holding on

They are looking, do your best

Bb

Don't hide who you are

Your dreams, your goal, your life (do it yourself)

You will achieve in time (do it yourself)

at least you got to try (do it yourself)

believe you're dynamite (do it yourself)

It looks like everything is falling apart

naturally things will fall into place

keep your feet on the ground

Great things will happen in your course

Break the bonds, raise your head, stay strong enough

Look at their eyes, face to face

Never hide who you are

[Ponte] Bb Dm Am

Who you are

Who you are
