

# Nashville Cast - I Will Never Let You Know

Tom: C

Am G C (2X)

I will hold my head up high.

You will never see me cry.

I'll smile and say I'm good.

But I would fall apart if I could.

I'm inside out, shot through the center.

Feel the scar of where you entered.

Took my life and turned it upside down.

I'm burned to ashes, split down the middle.

If anyone asks it hurt just a little.

I died inside the day I let you go,

But I will never let you know.

All this time the sky was lying.

They say that the moon don't shine.

It's just the light from a star.

Well maybe that's the way we are.

I'm inside out, shot through the center.

Feel the scar of where you entered.

Took my life and turned it upside down.

I'm burned to ashes, split down the middle.

If anyone asks it hurt just a little.

I died inside the day I let you go,

But I will never let you know.

Instrumental G Am C C Am C G

I'm burned to ashes, split down the middle.

If anyone asks it hurt just a little.

I died inside the day I let you go,

But I don't wanna let you,

I cannot forget you,

I will never let you know.
