

# Nashville Cast - Wake Up When It's Over

Tom: G

It wasn't one big blow that brought our love down  
 It was a hairline cracks that took it to the ground  
 Just kept creeping over time  
 Spreading like wildfire  
 It wasn't one big blow that brought our love down  
 Ooooo you didn't wanna see  
 You didn't wanna believe the dreams getting colder  
 Ooooo we begged the truth to bend  
 It's easier to pretend  
 You only see it when you're sober  
 Yeahh, You only wake up when it's over  
 Yeahh, You only wake up when it's over

You only wake up when it's over

There was so much about you I didn't realize  
 There was so much about me I couldn't recognize  
 Cause you can only get a clear view  
 When it's fading in the wind  
 There was so much love too, we didn't realize  
 Ooooo you didn't wanna see  
 You didn't wanna believe the dreams getting colder  
 Ooooo we begged the truth to bend  
 It's easier to pretend  
 You only see it when you're sober  
 Yeahh, You only wake up when it's over  
 Yeahh, You only wake up when it's over
