Then you wake up
And tomorrow is today
And you´re crying
Crying like a baby
Caught between the tides
(Did you lose your way)
You lost your way
(Did you lose your way)
```

```
You lost your way

Do you know where I´ve been

Walls are caving in
                  C
It moves across a wire
B                 C
There no need to talk

I crawl as you walk

Pushing me away

Flowers in the bin

Nothing gets undone

You pay the bill

You lost your will

Just run away until
