1a parte: som acústico

Take your Hand

And place it in my pocket

Flick your eyes back in their sockets

Put those thoughts away

Sometimes they're much to loud

I'll take a breath

And cradle your sweet head

Should've stayed at home in bed

Put that face away

I'm melting for you

Refrão: som acústico com tremolo

I know, I get cold

Cos I can't leave things well alone

Understand I'm accident prone

Me, I get free

Every night the moon is mine

RIFF 2 ==== som acústico tremolo 4x

But when the morning comes

Don't say you love me

Don't say you need me

I really don't think that's fair

Boy I'm not so dumb

But when you leave me

I'll be wishing was I, wishing I, wishing, I was there

RIFF 1 ==== distorção controle de volume 1x

2a parte: som acústico

I dreamt about another girl in bed with you

You just laughed and smiled

Denied the proof

We're fine till I think of the problem

I wish it made sense

Like a joke that no one gets

It's a life without regret

I want to fell that way, forever and ever

Refrão: som acústico com tremolo

I know, I get cold

Cos I can't leave things well alone

Understand I'm accident prone

Me, I get free

Every night the moon is mine

RIFF 2 ==== som acústico tremolo 4x

I'll be wishing was I, wishing I, wishing, I was there
