Nathaniel Rateliff - I Need Never Get Old

Tom: G
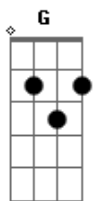

G x8
G D C G x2

G   D
Can we be there, oh, just think of the time
            D   G
Thought of love so strange, said you never knew
       G   D
While I try my best, hey, to cover our eyes
             D   G
It's a common way to blame and hide the truth

              C   G
I know that some will say, it matters but little, babe
                 D   G
Ah, but come on and mean it to me, I need it so bad

         G   D
I needed to try, needed to fall
               C   G
I needed your love I'm burning away, I need never get old

G D C G x2

              G   D
Taking our time, ah, just standing in the rain
             D   G
Meaning what you said, ah, and mean it to me

                     G   D
All of these lies, oh, and never again
             D   G
Come on and say it now, say it's a game

                              C   G
I know that some will say, it matters but little, babe
                              D   G
Ah, but come on and mean it to me, I need it so bad
         D   G
Ah, mean it to me, I need it so bad, mmmmmmmmm

                     G   D
I needed to try, needed to fall
                 C   G
I needed your love I'm burning away, I need never get old
                 G   D
I said I needed to try, needed to fall
                 C   G
I needed your love I'm burning away, I need never get old
                 G   D
I said I needed to try, needed to fall now, baby
                           C   G
I needed your love I'm burning away, I need never get old

                     G   G
I need never get old, I need never get old
   G   G
I need never get old, I need never get old
