

Navegante Boreal - Raízes

Tom: G

Metamorfósica mente, minhas raízes

Se movem me conectar com o todo

Metamorfósica mente, minhas raízes

Se movem me conectar com o todo

(Ab A Ab Gb Ab Gb Em)

E por debaixo da terra

Existe um magma efervescente

Onde as estrelas ígneas nascem

Como chama, como chama que vem

(Ab A Ab Gb Ab Gb Em)

Metamorfósica mente, minhas raízes

Vão se moldando com a essência do criar

No movimento de estar em paz

A todo momento na poeira estelar

Cristais, somos cristais

Que reluzem, refletem o que a natureza trás

Desabrochando em cores

Transpassando as flores

Em espiral, subimos ao astral

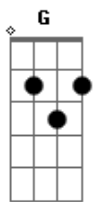

Vai se elevando, planando, ao infinito e além
