

Naynae Bradley - Whiskey Eyes

tom:
Gb

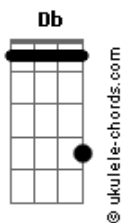

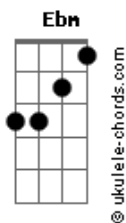

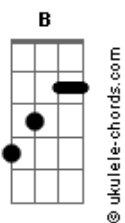

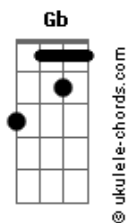

I've been lost
In the silenceland
I feel numb and
Nothing makes sense

I've been wrong
Love left me no chance
But for you love
I'd give all I have

Until you and then I see
The color that lives inside of me
And the whole galaxy
In that whiskey eyes

Please don't leave
Please just stay still
There's a word
That's hard to say

Acordes

Until you and then I see
The color that lives inside of me
And the whole galaxy
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes

Until you and then I see
The color that lives inside of me
And the whole galaxy

Until you and then I see (And then I see..)
The color that lives inside of me (Inside of me)
And the whole galaxy
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes
In that whiskey eyes

But baby
Please stay
