

Nazareth - All The Kings Horses

Tom: D

Intro: 4x: D C G

I know you
You always rode so tall in the saddle

You are the answer
But I know that you are only causin' trouble
Take all you want, leave me the rest behind
You're a user

A winnin' no new friends, just make one small step
You're a user

You never came to anyone's call
Spent all your life head on the wall
While you're up there, there's only one way to fall

All the king's horses and all the king's men
Will never put you together again

You still got your chances

The one thing the whole world loves is a winner
You can't walk on water
With your heat the ice you're on is gettin' thinner

You used to be so wise
But you are fooled by your own lies
And I see right through your disguise

All the king's horses and all the king's men
Will never put you together again

Solo: D C G F C D (2x)
A G A G A G D

All the king's horses and all the king's men
Will never put you together again

All the king's horses and all the king's men
Will never put you together again ?
