

Needtobreathe - Be Here Long

Tom: C

(com acordes na forma de G)

Capostrate na 5ª casa

Close my eyes and think of you

Go to sleep and dream of you

We don't get to be here long

I gave you the best of me

Loved you more than anything

But we don't get to be here long

We don't get to be here long

Though my heart may be in pieces

My eyes are still set on you

And though I can't keep it together

I know that you'd want me to

Oh, I'm swimming in the grief

And there's no anchor that could hold me down

I don't want any relief

Cause I don't wanna let you go right now
