

Needtobreathe - Hurricane

tom:

Intro: Am F C Am
Am F C

[Primeira Parte]

In the fallout now

With the damage done

We could not be proud

Of where our feet have walked along the ground

In the silence now

We play it back and forwards again

[Pré-Refrão]

There's a sound in our guiltiness

And we can't see

[Refrão]

We roll the dice we play like fools

We plead with time to change the rules

Its like a hurricane is coming our way

We've all been warned but we still chose to stay

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come

(Am C)

[Segunda Parte]

Play the victim here

You know it's nothing but your pride and fear

But the more you hurt

The more you love the one you were

[Pré-Refrão]

There's a sound in our guiltiness

And we can't see

[Refrão]

We roll the dice we play like fools

We plead with time to change the rules

Its like a hurricane is coming our way

We've all been warned but we still chose to stay

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come

(G Am G Am)
(F C F C)

[Ponte]

In the light of the mourning

Can we change what we felt and heard

Can we turn it into the glory

Break the paths of our fathers before us

Though we stand on the outside

We will find what we once believed

And will crawl our way to the clear skies

Standing up we are

Standing up we are

(Am C F C)
(Am C F C)

[Refrão]

We roll the dice we play like fools

We plead with time to change the rules

Its like a hurricane is coming our way

We've all been warned but we still chose to stay

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come

Ooo Ooo Ooo Ooo Ooo Ooo

I can't believe it now the time has come
